

BU800

For medium/large hard floors,
nothing compares to this outstanding
burnisher

A design with more features

BU800 represents the most technically advanced means of restoring and maintaining a high gloss shine on floors. The many features include easier-than-ever operation, added safety considerations, passive and (optional) active dust control.

The biggest difference, however, between the BU800 and its competitors is performance. For medium/large hard floors, nothing compares to this outstanding and truly well designed burnisher. With typical Nilfisk attention to detail, the BU800 has the right handling, accurate pad pressure, and superb dust control to produce a professional finish with value-adding productivity gains.

- Simple controls and low profile design make operating the unit easier and safer
- Self-regulating pad pressure eliminates the need for adjustments and reduces operator errors
- The burnishing deck automatically lifts when the motor is turned off for better floor protection
- On board battery charger saves downtime and adds convenience
- Excellent active dust control with HEPA filtration optional for dust sensitive areas

Technical specifications

Description	Unit	BU800
Voltage	V	36
Protection class / IP Protection		IPX4
Rated power	W	1500
Sound pressure level at 1.5m	dB(A)	68
Pad diameter	mm	508
Pad speed	rpm	1500
Max speed	km/h	4.4
Length x width x height	cm	127x58x105
Weight	kg	79
Weight w/batteries	kg	233
